

GEORGE A. OLNEY

FOR GOVERNOR OF ARIZONA

THE NATIONAL GUARD.

An efficient national guard is absolutely essential to the safety and protection of the whole people. I believe that the State guard should be placed on an effective footing, and to this end every encouragement should be extended to our young men to enlist and co-operate in building up the organization. In order to maintain an efficient National Guard it must not be used as a political machine.

NATIONAL FOREST AND INDIAN RESERVATIONS.

I believe that as rapidly as possible the land not actually needed for Indians and forest reserves in the State should be opened to settlement, and if elected Governor of the State, I will use my influence toward that end. Some of the State's best land is embraced within Indian reservations and is valueless to the Indians. The same can be said of the forest reserves. I especially advocate the passage of H. R. No. 12428, recently introduced by Honorable Carl Hayden in the National Congress, which will enable citizens to acquire mineral land within Indian reservations.

I believe that proper laws should be enacted to enable the investment of capital in water storage systems along the hundreds of streams flowing from the mountains, and now sinking into the desert sands.

I especially advocate taking advantage of the provisions of the National Carey Act, as well as the opening to settlement of the vast area of new barren Indian lands situated near Parker on the Colorado river.

ECONOMY

I believe that the Government of the State of Arizona is costing too much, and that the people are paying too much taxes. I know that while land is not producing any more today than it was ten years ago, taxes are several hundred per cent higher. This is discouraging not only to men who have to pay the taxes, but to the man who may be invited to invest his money in the many meritorious propositions that are offered within this State. A low tax rate is the best advertisement that a community can have, and if elected Governor of this State, I will endeavor to the best of my ability to devise ways and means to the end that the burden of taxation upon the people may be reduced, and that the State be given a business administration.

LABOR.

I am in favor of every man, and particularly the man who labors with his hands, realizing the fullest extent of the rewards which should be his by reason of his daily toil.

I believe that the relation between employer and employee should be placed upon a high plane of mutual understanding, and that the offices of the State might well be employed toward assisting and encouraging the greatest mutual interest and good feeling between these two classes which mean so much to the State.

I trust that the above statements which I have attempted to make frankly and without reserve, will indicate to the people of Arizona my attitude upon all questions discussed herein.

It is not possible to cover in a general statement all of the questions that may arise during the campaign, but I wish to say that I have always been a firm believer in the rule of the majority, and if elected Governor, I shall endeavor to honestly and fairly enforce the laws as I find them, without fear and without favor.

I shall be glad to have you give the foregoing much publicity as you desire.

Yours very truly,

GEORGE A. OLNEY.

POLITICAL ANNOUNCEMENTS

—Adv.

HON. A. C. BAKER,

President, Olney Democratic Club of Maricopa County.

Phoenix, Arizona.

My Dear Judge:

Referring to our recent conversation relative to my candidacy, I hand you herewith the following statement of my position on some of the leading issues of the day.

I believe the people of the state are entitled to know exactly what candidates for office stand for, and I think an outspoken and frank avowal by each candidate is in accordance with the basic principles of democracy. It is only by this means that the utmost confidence can be established between the people who are served and the public officials who may serve them. I take pleasure, therefore, in submitting the following:

TAXATION

In the matter of taxation the Democratic doctrine of equal rights to all and special privileges to none can and must be exemplified in the assessment of property for taxation, and if elected, I will do everything in my power without subterfuge or evasion to make this principle effective.

I have no hobby in the way of revenue legislation. I simply demand that all property, regardless of class or ownership, be compelled to bear its just proportion of the tax burden.

I AM OPPOSED TO ANY SPECIAL LAW FOR THE TAXATION OF MINES OR ANY OTHER CLASS OF PROPERTY. Our laws provide that the assessment of all property shall be based on its full cash value. I believe that this law should be fairly and firmly enforced. My official record shows that I have always fought for a higher rate.

I believe the road system of the State should be extended as rapidly as conditions will justify, and it will be my aim if elected Governor of Arizona to encourage in every way the construction of State highways and neighborhood roads, in order that the actual residents of the State may be enabled to reach one another and transact their business by means of good highways.

LIVE STOCK INDUSTRY

The live stock industry is one of the most important in the state, and the money annually realized from the sale of live stock and its products, and circulated freely throughout the State tends to stimulate all branches of trade.

I believe that all laws enacted for the protection of this industry should be strictly enforced, and that liberal bounties should be paid for the destruction of predatory wild animals.

of valuation on the property of the big mining companies and rail roads, and do not think these companies are paying too much taxes at the present time.

PUBLIC INSTITUTIONS.

I believe that every State and Public institution should be conducted along economic lines, and that special audits of the financial affairs of each institution should be made at frequent intervals to determine not only how much money is being spent, but whether or not the greatest efficiency is being realized on the expenditures made. I do not think that any political machine should be built up by reason of patronage within the public institutions of the State, and if elected Governor of Arizona, appointments will be made to State institutions which will be based upon merit and ability.

ROADS.

It appears that the cost of construction of State roads under the present prison policy is too expensive. Aside from this, my opinion is that there are many citizens of the State who could be profitably employed upon the highways both to the advantage of the State and themselves, and who are now displaced by prison labor.
